

Lava Stone

COBSA-USA

NEW YORK

L

ava Stone

5/8" x 5/8" on a 12" x 12" sheet

CossA-USA Lava Stone Tiles blend both rich visual textures and exceptional depth to

reveal a wonderfully distinctive beauty and style. This unusual volcanic

stone is mined, quarried, and then glazed. During the glazing process,

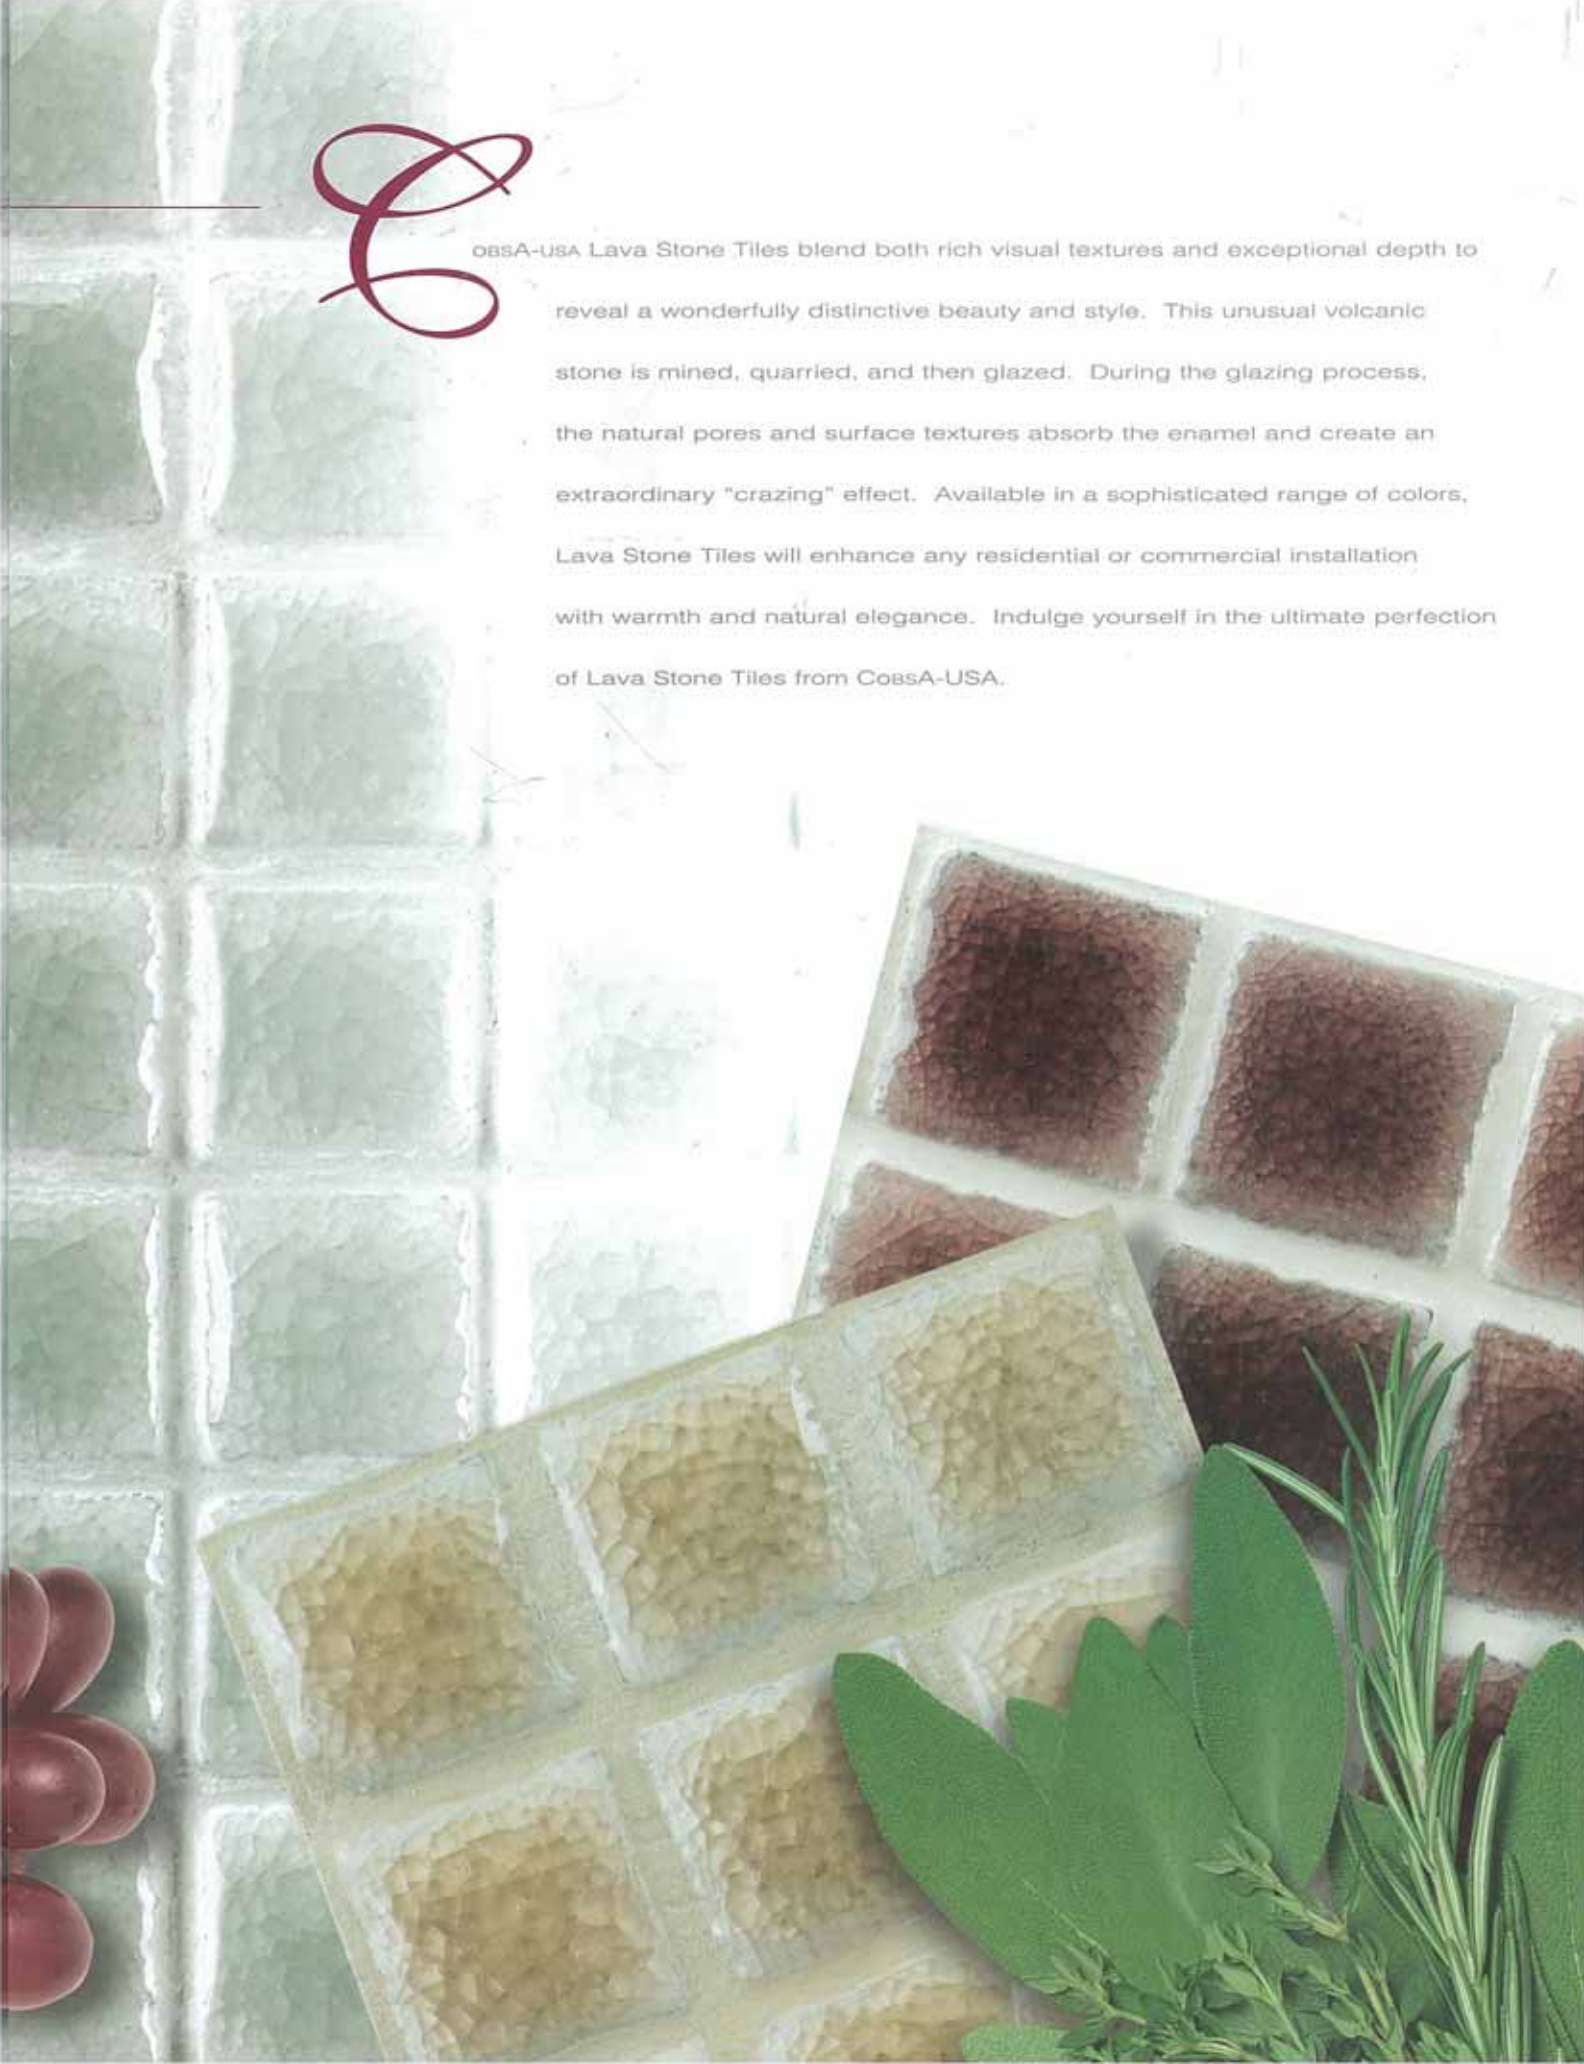

the natural pores and surface textures absorb the enamel and create an

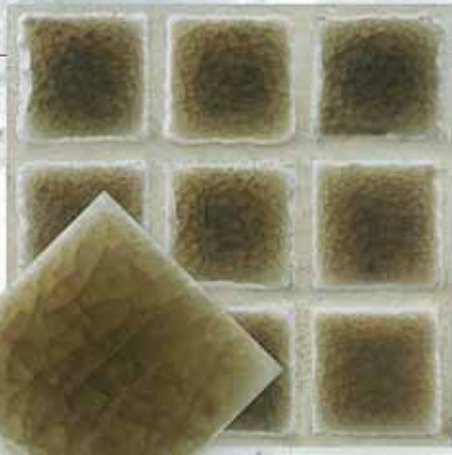

extraordinary "crazing" effect. Available in a sophisticated range of colors,

Lava Stone Tiles will enhance any residential or commercial installation

with warmth and natural elegance. Indulge yourself in the ultimate perfection

of Lava Stone Tiles from CossA-USA.
